Options

1x Brutalis Dreadnought

Twin Icarus Ironhail Heavy Stubber, Brutalis Talons, Twin Multi-melta

Unit	M	T	SV	W	LD	OC	
Brutalis Dreadnought	8"	10	2+	12	6+	4	
Ranged Weapons	Range	A	BS	S	AP	D	Keywords
Twin Icarus Ironhail Heavy Stubber	36"	3	3+	4	0	1	Anti-FLY 4+, Rapid Fire 3, Twin-linked
Twin Multi-melta	18"	2	3+	9	-4	D6	Melta 2, Twin-linked
Melee Weapons	Range	A	WS	S	AP	D	Keywords
► Brutalis Talons - Strike	Melee	6	3+	12	-2	3	Twin-linked
► Brutalis Talons - Sweep	Melee	10	3+	7	-2	1	Twin-linked
Abilities	Description						
Brutalis Charge	Each time this model ends a Charge move, select one enemy unit within Engagement Range of it and roll one D6: on a 2-3, that enemy unit suffers D3 mortal wounds; on a 4-5, that enemy unit suffers 3 mortal wounds; on a 6, that enemy unit suffers D3+3 mortal wounds						
Damaged: 1-4 Wounds Remaining	While this model has 1-4 wounds remaining, each time this model makes an attack, subtract 1 from the Hit roll.						
Rules	Deadly Demise D3, Oath of Moment, Anti-, Rapid Fire, Twin-linked, Melta						
Categories	Brutalis Dreadnought, Dreadnought, Faction: Adeptus Astartes, Imperium, Vehicle, Walker

Abilities	Description									
Transport	This model has a transport capacity of 7 TACTICUS or PHOBOS INFANTRY models. It cannot transport JUMP PACK models.									
Assault Vehicle	Units can disembark from this Transport after it has Advanced. Units that do so count as having made a Normal move, and cannot declare a charge that turn.									
Rules	Deadly Demise D3, Firing Deck 6, Oath of Moment, Rapid Fire, Anti-, Blast									
Categories	Dedicated Transport, Faction: Adeptus Astartes, Imperium, Impulsor, Transport, Vehicle									

Force Rules

Army Roster (Imperium - Adeptus Astartes - Blood Angels)

Oath of Moment

If your Army Faction is Adeptus Astartes, at the start of your Command phase, select one unit from your opponent's army. Until the start of your next Command phase, that enemy unit is your Oath of Moment target. Each time a model with this ability makes an attack that targets your Oath of Moment target:

- You can reroll the Hit roll
- If your army does not include one or more units with the Black Templars, Blood Angels, Dark Angels, Deathwatch or Space Wolves keywords, add 1 to the Wound roll as well.

Selection Rules

Anti-:

Weapons with [ANTI-KEYWORD X+] in their profile are known as Anti weapons. Each time an attack is made with such a weapon against a target with the keyword after the word 'Anti-', an unmodified Wound roll of 'x+' scores a Critical Wound.

Blast:

Weapons with [BLAST] in their profile are known as Blast weapons, and they make a random number of attacks. Each time you determine how many attacks are made with a Blast weapon, add 1 to the result for every five models that were in the target unit when you selected it as the target (rounding down). Blast weapons can never be used to make attacks against a unit that is within Engagement Range of one or more units from the attacking model's army (including its own unit).

Deadly Demise D3:

Some models have 'Deadly Demise x' listed in their abilities. When such a model is destroyed, roll one D6 before removing it from play (if such a model is a TRANSPORT, roll before any embarked models disembark). On a 6, each unit within 6" of that model suffers a number of mortal wounds denoted by 'x' (if this is a random number, roll separately for each unit within 6").

Deep Strike:

During the Declare Battle Formations step, if every model in a unit has this ability, you can set it up in Reserves instead of setting it up on the battlefield. If you do, in the Reinforcements step of one of your Movement phases you can set up this unit anywhere on the battlefield that is more than 9" horizontally away from all enemy models.

If a unit with the Deep Strike ability arrives from Strategic Reserves, the controlling player can choose for that unit to be set up either using the rules for Strategic Reserves or using the Deep Strike ability.

Devastating Wounds:

Weapons with [DEVASTATING WOUNDS] in their profile are known as Devastating Wounds weapons. Each time an attack is made with such a weapon, if that attack scores a Critical Wound, no saving throw of any kind can be made against that attack (including invulnerable saving throws). Such attacks are only allocated to models after all other attacks made by the attacking unit have been allocated and resolved. After that attack is allocated and after any modifiers are applied, it inflicts a number of mortal wounds on the target equal to the Damage characteristic of that attack, instead of inflicting damage normally.

Feel No Pain:

Some models have 'Feel No Pain x+' listed in their abilities. Each time a model with this ability suffers damage and so would lose a wound (including wounds lost due to mortal wounds), roll one D6: if the result is greater than or equal to the number denoted by 'x': that wound is ignored and is not lost. If a model has more than one Feel No Pain ability, you can only use one of those abilities each time that model suffers damage and so would lose a wound.

Firing Deck 6:

Some TRANSPORT models have 'Firing Deck x' listed in their abilities. Each time such a model is selected to shoot in the Shooting phase, you can select up to 'x' models embarked within it whose units have not already shot this phase. Then, for each of those embarked models, you can select one ranged weapon that embarked model is equipped with (excluding weapons with the [ONE SHOT] ability). Until that TRANSPORT model has resolved all of its attacks, it counts as being equipped with all of the weapons you selected in this way, in addition to its other weapons. Until the end of the phase, those selected models' units are not eligible to shoot.

Hazardous:

Weapons with [HAZARDOUS] in their profile are known as Hazardous weapons. Each time a unit is selected to shoot or fight, after that unit has resolved all of its attacks, for each Hazardous weapon that targets were selected for when resolving those attacks, that unit must take one Hazardous test. To do so, roll one D6: on a 1, that test is failed. For each failed test you must resolve the following sequence (resolve each failed test one at a time):

- If possible, select one model in that unit that has lost one or more wounds and is equipped with one or more Hazardous weapons.
- Otherwise, if possible, select one model in that unit (excluding CHARACTER models) equipped with one or more Hazardous weapons.
- Otherwise, select one CHARACTER model in that unit equipped with one or more Hazardous weapons.

If a model was selected, that unit suffers 3 mortal wounds and when allocating those mortal wounds, they must be allocated to the selected model.

If a unit from a player's army is selected as the target of the Fire Overwatch Stratagem in their opponent's Charge phase, any mortal wounds inflicted by Hazardous tests are allocated after the charging unit has ended its Charge move.

Heavy:

Weapons with [HEAVY] in their profile are known as Heavy weapons. Each time an attack is made with such a weapon, if the attacking model's unit Remained Stationary this turn, add 1 to that attack's Hit roll.

Infiltrators:

During deployment, if every model in a unit has this ability, then when you set it up, it can be set up anywhere on the battlefield that is more than 9" horizontally away from the enemy deployment zone and all enemy models.

Leader:

While a Bodyguard unit contains a Leader, it is known as an Attached unit and, with the exception of rules that are triggered when units are destroyed (pg 12), it is treated as a single unit for all rules purposes. Each time an attack targets an Attached unit, until the attacking unit has resolved all of its attacks, you must use the Toughness characteristic of the Bodyguard models in that unit, even if a Leader in that unit has a different Toughness characteristic. Each time an attack successfully wounds an Attached unit, that attack cannot be allocated to a Character model in that unit, even if that Character model has lost one or more wounds or has already had attacks allocated to it this phase. As soon as the last Bodyguard model in an Attached unit has been destroyed, any attacks made against that unit that have yet to be allocated can then be allocated to Character models in that unit.

Each time the last model in a Bodyguard unit is destroyed, each CHARACTER unit that is part of that Attached unit becomes a separate unit, with its original Starting Strength. If this happens as the result of an attack, they become separate units after the attacking unit has resolved all of its attacks.

Each time the last model in a CHARACTER unit that is attached to a Bodyguard unit is destroyed and there is not another CHARACTER unit attached, that Attached unit's Bodyguard unit becomes a separate unit, with its original Starting Strength. If this happens as the result of an attack, they become separate units after the attacking unit has resolved all of its attacks.

Each time a unit that is part of an Attached unit is destroyed, it does not have the keywords of any other units that make up that Attached unit (unless it has those keywords on its own datasheet) for the purposes of any rules that would be triggered when that unit is destroyed.

Lethal Hits:

Weapons with [LETHAL HITS] in their profile are known as Lethal Hits weapons. Each time an attack is made with such a weapon, a Critical Hit automatically wounds the target.

Melta:

Weapons with [MELTA X] in their profile are known as Melta weapons. Each time an attack made with such a weapon targets a unit within half that weapon's range, that attack's Damage characteristic is increased by the amount denoted by 'x'.

Oath of Moment:

If your Army Faction is Adeptus Astartes, at the start of your Command phase, select one unit from your opponent's army. Until the start of your next Command phase, that enemy unit is your Oath of Moment target. Each time a model with this ability makes an attack that targets your Oath of Moment target:

- You can reroll the Hit roll
- If your army does not include one or more units with the Black Templars, Blood Angels, Dark Angels, Deathwatch or Space Wolves keywords, add 1 to the Wound roll as well.

Pistol:

Weapons with [PISTOL] in their profile are known as Pistols. If a unit contains any models equipped with Pistols, that unit is eligible to shoot in its controlling player's Shooting phase even while it is within Engagement Range of one or more enemy units. When such a unit is selected to shoot, it can only resolve attacks using its Pistols and can only target one of the enemy units it is within Engagement Range of. In such circumstances, a Pistol can target an enemy unit even if other friendly units are within Engagement Range of the same enemy unit.

If a model is equipped with one or more Pistols, unless it is a MONSTER or VEHICLE model, it can either shoot with its Pistols or with all of its other ranged weapons. Declare whether such a model will shoot with its Pistols or its other ranged weapons before selecting targets.

Precision:

Weapons with [PRECISION] in their profile are known as Precision weapons. Each time an attack made with such a weapon successfully wounds an Attached unit, if a Character model in that unit is visible to the attacking model, the attacking model's player can choose to have that attack allocated to that Character model instead of following the normal attack sequence.

Psychic:

Some weapons and abilities can only be used by PSYKERS. Such weapons and abilities are tagged with the word 'Psychic'. If a Psychic weapon or ability causes any unit to suffer one or more wounds, each of those wounds is considered to have been inflicted by a Psychic Attack.

Rapid Fire:

Weapons with [RAPID FIRE X] in their profile are known as Rapid Fire weapons. Each time such a weapon targets a unit within half that weapon's range, the Attacks characteristic of that weapon is increased by the amount denoted by 'x'.

Sustained Hits:

Weapons with [SUSTAINED HITS X] in their profile are known as Sustained Hits weapons. Each time an attack is made with such a weapon, if a Critical Hit is rolled, that attack scores a number of additional hits on the target as denoted by 'x'.

Twin-linked:

Weapons with [TWIN-LINKED] in their profile are known as Twin-linked weapons. Each time an attack is made with such a weapon, you can re-roll that attack's Wound roll.
